Skillsme Test Committee General Entry Requirements

Volunteer Position

Description

Skillsme is working on a system that can help developers show their capability through their rankings among all developers, and thus they can display their true value objectively to let people understand their capability in a much fairer way. To achieve this, Skillsme is building a committee to help control the quality of the tests and questions so it can match with needs of the market. Entering this committee means you are going to put your free time in helping Skillsme improve the quality of its skill tests through giving suggestions and advices, and many programmers may be benefited by your effort.

Duty

PROVIDE YOUR PROFESSIONAL OPINIONS

We wish you to be part of our improvement of the test, to bring your ideas and opinions to us by giving feedbacks and suggestions to our existing questions.

HELP US SET UP THE DIRECTION OF QUESTIONING

We wish you to use your professional skills, experiences and perception of the IT industry to help us on setting up the direction and guidelines for our future questions.

Benefit

1. Free access to all the events or activities that are hold by Skillsme or Skillsme Test Committee.

2. Meet other senior and experienced developers or engineers through this committee.
